

ADVANCED PSYCHOSOCIAL ISSUES IN PALLIATIVE CARE - WHATS THE STORY?

This 3 day interactive and experiential program is for interdisciplinary team members who want to increase their knowledge, skills and competencies in advanced psychosocial, spiritual and therapeutic issues in palliative care. Facilitated by members of the Social work, Nursing, Administration, Chaplaincy and Education teams of St Francis Hospice Dublin, this program explores the challenges in caring 'with' patients and their significant others.

THE CONTENT WILL INCLUDE:

- Attachment and loss
- Communication/active listening
- Case studies: Dealing with anger, emotion, breaking bad news, and challenging questions
- Total pain/psychological and spiritual distress
- Reflective writing
- Personhood, diversity and sexuality
- Family systems
- Working with children
- Grief and loss
- The importance of self-care
- Team work
- Assisted decision making and Advance Care planning

Course Dates: 18th & 25th April & 2nd May 2024

Location: St Francis Hospice Blanchardstown (Education Centre)

Time: 10:00 - 16.30

Fee: €350
